

INITIATIVE PETITION

Establish minimum widths for private streets to provide adequate on-street parking and discourage spill-over parking and traffic into nearby neighborhoods. Exclude private streets from the floor area ratio of adjacent buildings. Apply this minimum 32' street width to all new developments with specific exceptions where private streets may be 26' wide.

Currently private streets as narrow as 20' are allowed and have been approved. This creates major parking problems and results in serious parking and traffic problems in nearby neighborhoods and may create difficulties for emergency vehicle access. Projects that have not received final legal approval should not be developed with inadequate streets and parking for the public and residents.

NOTICE TO THE PUBLIC

**THIS PETITION MAY BE CIRCULATED BY A PAID SIGNATURE GATHERER OR A VOLUNTEER.
YOU HAVE THE RIGHT TO ASK.**

All signers to this petition should be qualified registered voters of the City of Palo Alto
